About the Conference:

This annual event provides a venue for Latino and non-Latino educators, business and community leaders to learn about ongoing and emerging educational issues impacting the Latino community. This conference will support the efforts of numerous educators by providing valuable information on a range of innovative strategies for the fastest growing ethnic U.S. segment—Latinos. The theme of this year's conference is:

Narratives of Resiliency: Through Strength We Rise

How do Latinx educational leaders do it? How do we influence positive academic and social emotional outcomes for students? How do we inspire teachers to do the same? How do we all thrive and flourish amidst social and political times filled with uncertainty, vulnerability and pain? This year's OALA Winter Conference will ponder these questions by exploring asset-based narratives of resiliency, success and achievement for Latinx educational leaders. You do not want to miss out on listening to these compelling stories!

Conference strands will include...

- Leadership Development: Inspire current and future leaders by sharing transformative approaches
- Promising Instructional Strategies: Student Engagement, Academic Excellence & Assessment
- Equity: Cultural Agility In Our Increasingly Globalized Communities & Politicized Landscapes
- Engaged Communities: Establishing Partnerships With Our Latino Families and Community

There will be a limited number of breakout sessions. The strength of the proposal, timeliness, and strand alignment are essential elements to being accepted.
