

RENAISSANCE **Star Spanish®**

Pre-K–12 student assessments for Spanish-speaking students

Get a precise picture in both English and Spanish

Teachers are passionate about helping all students achieve and grow, but it can be challenging when there are different levels of English comprehension in the same classroom. There are nearly four million Spanish-speaking English Learners in K–12 schools nationwide, so teachers need clear data to effectively and confidently guide instruction.

Only Renaissance Star Assessments® provide side-by-side comparisons of English and Spanish scores for reading, math, and early literacy. You can quickly identify gaps between what students know in Spanish and what they can demonstrate in English—and determine if they need help with skills mastery, English language acquisition, or both.

Understand the needs of your English Learners

Star Assessments give you the data and insight you need to determine the best instruction to meet each English Learner's unique needs—plus more instructional time to act on those decisions. In fact, it takes less than 20 minutes of testing time to get valid, reliable, actionable results.

Using the interactive reports and dashboards, you can:

- See which students are on track to meet goals and which may need additional support
- View how students are progressing toward mastery
- Compare progress between grade-level peers

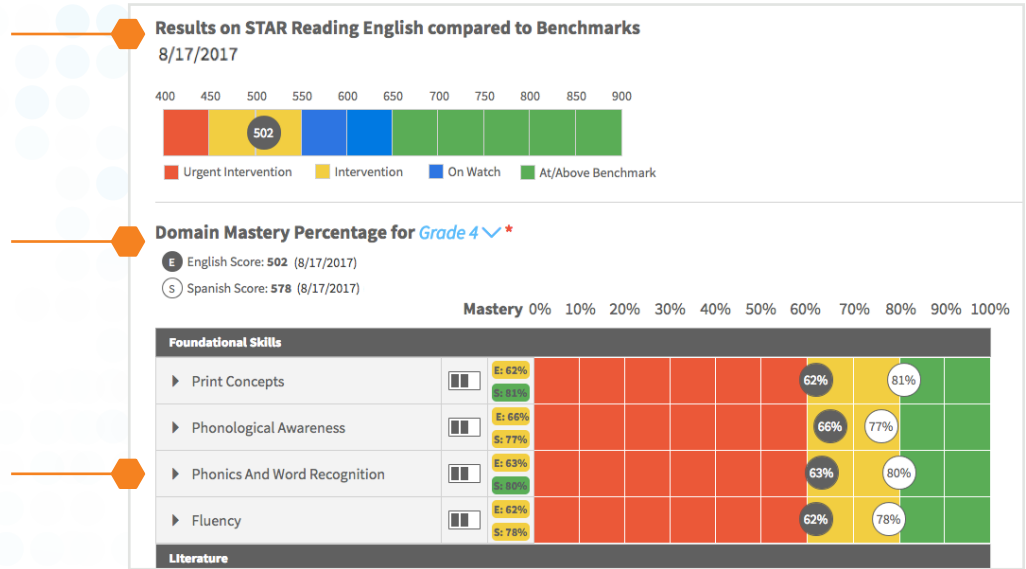

Side-by-side comparison of English and Spanish scores

The Mastery Dashboard shows scores in English and Spanish, all aligned to your state standards, so you have a clear picture of each student's abilities in both languages.

Benchmarks to help determine proficiency levels

Side-by-side comparison of English and Spanish domain scores for reading, math, and early literacy

Data to help you monitor and track student progress and growth throughout the year

Star Spanish is included with Star Early Literacy, Star Reading, and Star Math.
