

## Common Formative Assessments 2.0 Client Certification

Common Formative Assessments 2.0 (CFA 2.0) is a new and improved process that allows educators to intentionally align their pre- and post-assessments and use student feedback to adjust and differentiate instruction.

School districts, educational service agencies, and other educational organizations can now build internal capacity by establishing their own team of certified trainers to deliver CFA 2.0 workshops within their region. In addition, participants of CFA 2.0 Certification Training will receive helpful presentation materials and resources, and an exclusive discount on training materials.

**Dave Nagel** has been a national and international presenter and consultant to schools for over 10 years. Using his experience and expertise, he has presented and helped schools, from pre-K through Grade 12, implement effective practices leading to gains in student achievement.

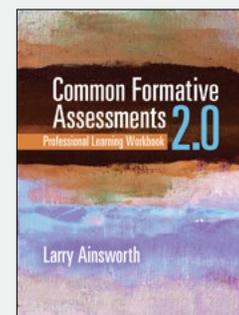

### **Common Formative Assessments 2.0**

**How Teacher Teams Intentionally Align Standards, Instruction, and Assessment**

In this expanded, all-new edition, Larry Ainsworth presents a powerful, research-based process for improving teaching and student learning applicable to all standards, all grades, and all content areas. The CFA 2.0 process is a system of intentionally aligned components (standards, instruction, assessments, and data analysis) that all work together to improve student learning.

### **Common Formative Assessments 2.0** Professional Learning Workbook

The workbook has been developed as a guide for certification attendees. Prior to certification, participants are required to read Common Formative Assessments 2.0 and will use the workbook as a write-in guide to work through during the training.
