FIVE Equity ESSENTIALS

1. What does your school/program and staff do to make everyone feel WELCOME, INCLUDED and SAFE?
2. What does your school/program and staff do to LEARN and CELEBRATE DIVERSITY and CULTURES – which then specifically IMPACTS INSTRUCTION and how staff teaches CHILDREN?
3. What does your school/program do to build COMMUNITY?
4. What does your school/program do to IMPACT your group DATA in targeted areas (achievement, discipline, attendance, etc.)?
5. What does your school/program do to ENGAGE your FAMILIES – beyond just participation?

Equity Lens Reflective Questions

DAVID DOUGLAS SCHOOL DISTRICT EQUITY LENS

When making decisions and taking action, utilize the following questions:

- Does this decision align with the District mission/ vision?
- What systems of oppression might exist within this situation?
- Whom does this decision affect both positively and negatively?
- Does the decision being made ignore or worsen existing disparities or produce other unintended consequences?

September 2022 Newsletter

Hello David Douglas Community and Welcome Back!

The Equity Department is so excited to be jumping into another school year! We are here, in part, because of our district's mission statement:

Our mission at David Douglas is to provide meaningful, equitable, and highly effective instruction so each student grows and thrives socially, emotionally, and academically.

Each month we will be coming to your inbox with news, updates, events, and resources to support, encourage, and enhance your equity journey. Additionally, we will continue to celebrate and uplift traditionally marginalized groups represented within our community.

Equity Team, Data Review Protocol Include the DDSD Equity Lens

Are those being affected by the decision included in the process?

- 1) Do you see what I see?
Orient ourselves to the data before your team, ask and answer clarifying questions.
- 2) What is our purpose in looking at this data?
Is this about research, accountability, evaluation, or improvement? Will our discussion drive any decisions today?
- 3) What does this data tell us and what are we missing?
Clarify what you know from the data, and set aside things we'd have to infer.
- 4) Where do you see yourself in the data?
Intentionally connect yourself to the data
