# We believe in less paperwork and more leadership.

COSABot is a revolutionary AI platform designed for school administrators—providing them with a trusted space for AI resources, a vast prompt library to streamline tasks, and closed chatbots that transform evaluation processes.

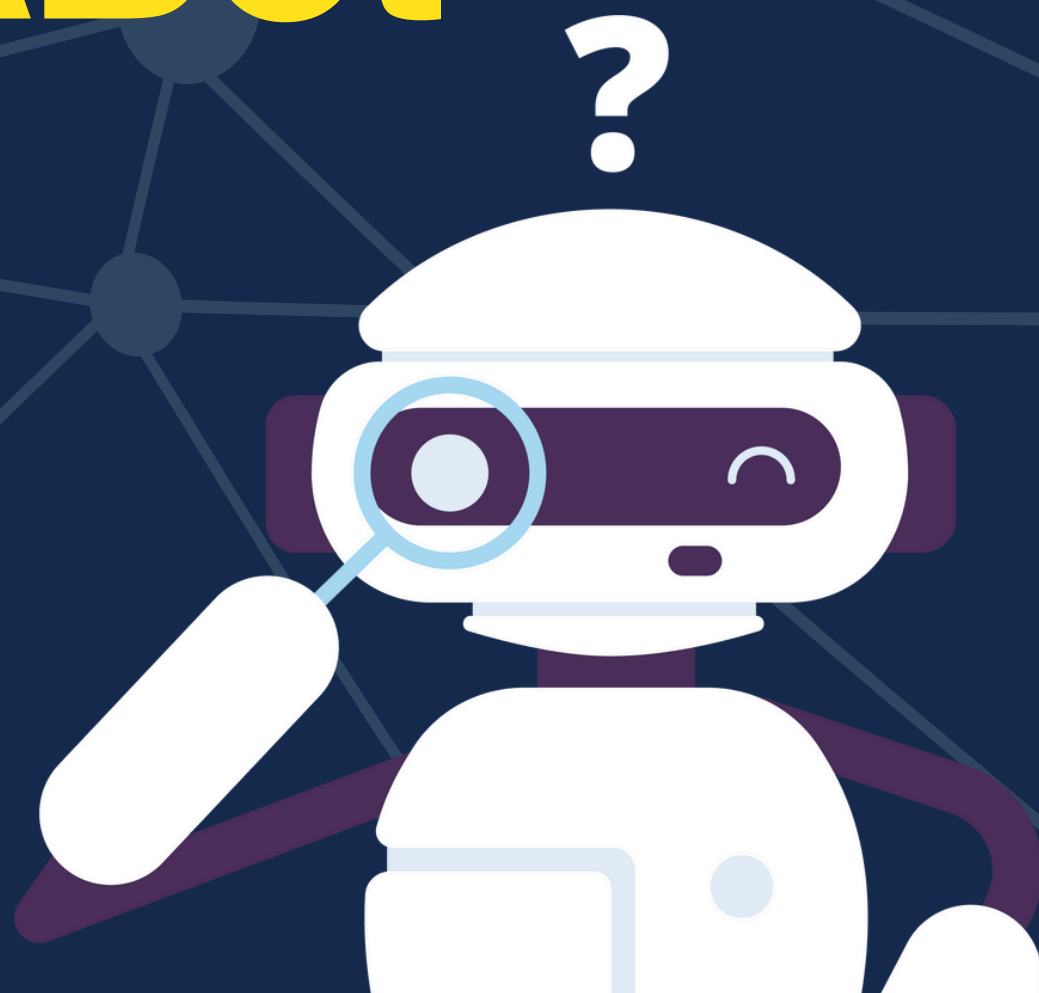

This isn't about replacing human leadership; it's about freeing up time and bringing humanity to the table through mentorship, vision, and impact.

# COSABot

## **Vast Prompt Library**

Generated from administrators in the field, get a prompt of the week designed to lighten your workload.

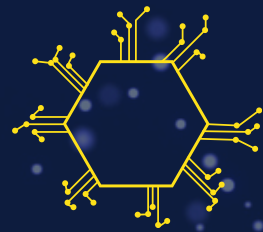

## **Closed Chatbots**

With 3 chatbots and a 4th in development, use the power of AI within a closed and secure system to take your feedback reports to the next level.

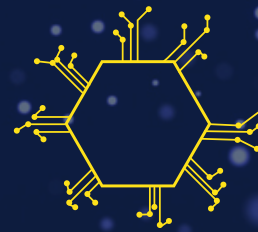

## **Resources and Professional Learning**

Access national and local resources, communities of practice and ongoing professional learning.

# Exploring COSABot's Powerful Platform

# Streamlining Evaluations with COSABot

The screenshot shows a mobile app interface for COSABot. A central white form titled 'Teacher Info' is overlaid on a dark background. The form contains four text input fields with example text: 'Ex: First Name, Last Name, Initials, Nick Name', 'Ex: Date 1 through Date 2', 'Ex: Grades 2 through 5', and 'Ex: Math, Science'. A 'Save changes' button is at the bottom right of the form. A large play button icon is centered over the form. The background shows a 'Chatbot' interface with a 'Send' button and a list of 'Teacher A Teacher Feed...' items on the left.

**Teacher Info**  
Answer the following questions below...

How should we identify this teacher?  
Ex: First Name, Last Name, Initials, Nick Name

What date, or range of dates, was information collected as is the basis of this report?  
Ex: Date 1 through Date 2

What grade level pertain to this report?  
Ex: Grades 2 through 5

What subject(s) pertain to this report?  
Ex: Math, Science

Save changes

**As easy as counting to 3!**

1. Upload your observation notes
  2. Select your framework, or add your own
  3. Prompt the chatbot to generate a report.
- Use prompt frameworks and information critical to generating a high-quality report such as context, previous points of praise or opportunities for growth.

# Maximizing Time, Minimizing Costs

Administrators are averaging 4-8 hours on a single feedback report from an observation. COSABot generates high-quality, growth-focused draft reports in seconds.

# Ongoing Professional Learning

Weekly office hours

Live demos at COSA conferences

Monthly lunch and learn webinars

On-site support
