LEVELS OF ENGAGEMENT

According to Phillip Schlechty, there are five ways that students respond or adapt to school-related tasks and activities.

ENGAGEMENT

HIGH ATTENTION - HIGH COMMITTMENT

The student associates the task with a result or product that has meaning and value for the student. The student will persist in the face of difficulty and will learn at high and profound levels.

STRATEGIC COMPLIANCE

HIGH ATTENTION - LOW COMMITTMENT

The task has little inherent or direct value to the student, but the student associates it with outcomes or results that do have value to the student (such as grades). Student will abandon work if extrinsic goals are not realized and will not retain what is learned.

RITUAL COMPLIANCE

LOW ATTENTION - LOW COMMITTMENT

The student is willing to expend whatever effort is needed to avoid negative consequences. The emphasis is on meeting the minimum requirements. The student will learn at low and superficial levels.

RETREATISM

NO ATTENTION - NO COMMITTMENT

The student is disengaged from the task and does not attempt to comply with its demands, but does not try to disrupt the work or substitute other activities for it. The student does not participate and learns little or nothing from the task.

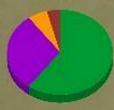

REBELLION

DIVERTED ATTENTION - NO COMMITTMENT

The student refuses to do the work, acts in ways to disrupt others, or substitutes tasks and activities to which he or she is committed. Student develops poor work sometimes negative attitudes towards formal education and intellectual tasks.
