

PRINCIPAL^{ed}

Navigating the Leadership Learning Curve

By, Kate Barker, Kourtney Ferrua & Rachael George

You are invited!

We, three practicing Oregon administrators, would like to extend a personal invitation to join the PrincipalED: Navigating the Leadership Learning Curve book study! We know leaders are critical to school success, however, we rarely discuss how challenging it can be and how to do it well. This book study will be interactive and full of connecting and networking, which is perfect for individual growth, reflection, and development.

The three of us hope you will join us as we come together along with other leaders across the state and nation to connect about our learning curves, as we believe this work is best done together. Leadership can feel lonely at times, but you always have to remember that you aren't alone.

We look forward to connecting!

Being a principal is a rocky ride. Tomorrow always has surprises waiting, there are always too many priorities, and for most of us good is not good enough. This is a rare book, written from the front line. A must-have for future, new, and experienced school leaders.

-John Hattie, PhD, director of the Melbourne Educational Research Institute
