- B. At least two years' experience in a computer support position with experience supporting end users on various application programs and maintaining computer and peripheral equipment.
- C. Excellent written and oral communication skills
- D. Flexible and adaptable to changing activities and work loads
- E. Ability to simultaneously coordinate and complete multiple projects
- F. Knowledge of advanced troubleshooting techniques
- G. Ability to diagnose the nature and extent of a wide range of end user technology problems
- H. Working knowledge of Microsoft Services, Active Directory and Google Apps for Education preferred
- I. Demonstrated knowledge of Microsoft Windows, MacOS and iOS Operating systems
- J. Demonstrated ability to learn and desire to keep current with changes occurring in the industry
- K. Ability to work positively and cooperatively with others
- L. Maintain integrity of confidential information relating to students, staff, or district patrons
- M. Ability to work harmoniously with others

ESSENTIAL RESPONSIBILITIES

- A. Assist users to assure that hardware and software solutions operates in a manner consistent with expectations; provide troubleshooting assistance as necessary; coordinate responses to users with supervisors as necessary
- B. Provide technical assistance and support, troubleshoot and resolve system hardware, software and communication failures and conflicts
- C. Evaluate existing user technologies, and perform system upgrades based on user needs and tests solutions, resolving configuration conflicts and errors
- D. Install, integrate, and configure new technologies
- E. Research, analyze, and recommend, appropriate end user technology configurations
- F. Review, prioritize, and process work order reports; document the progress of projects; complete assignments to exceed customer expectation
- G. Support the strategic integration of technology into classroom instruction
- H. Coordinate state reporting requirements and state assessments.
- I. Install new PC hardware, software, and peripherals, and fully test each installation.
- J. Physically relocate workstations and peripherals within buildings and to and from buildings and reconfigure workstations and devices to accommodate these relocations.
- K. Repair and upgrade PC hardware and peripherals.
- L. Work with manufactures and service providers to rectify support issues and/or replace equipment.
- M. Design webpage layout and up-dates and maintains web content.
- N. Create and manage network and e-mail accounts.
- O. Interact with trouble ticketing systems, and spreadsheet/database application systems used to track project progression and District inventory.
- P. Collaborate with IT, District, and School leaders to plan for the upgrade and enhancement of software and hardware and to assure adequate current capacity and continuous pro-active planning for growth.

Banks School District believes that every individual makes a significant contribution to our success. That contribution should not be limited to assigned responsibilities. Therefore, this position description is designed to define primary duties, qualifications and job scope but should not limit the incumbent nor the organization to the work identified. It is our expectation that every employee will offer his/her services wherever and whenever necessary to ensure the success of the District's goals.
