Special Directions for Reading Rockets:

To meet all of the requirements for the Foundational Skills in Reading focus area, a teacher who chooses to complete the Reading Rockets modules must:

1. Complete a short module on progress monitoring from the IRIS Center: Classroom Assessment (Part 2) Evaluating Reading Progress: <https://iris.peabody.vanderbilt.edu/module/rpm/> in addition to the 10 Reading Rocket modules. This free online module includes required content not included in the Reading Rockets modules on understanding the principles of progress monitoring, using graphs to indicate progress, and accurately interpreting progress monitoring graphs to decide whether or not a student is making adequate progress. This module will take 30 minutes to 1 hour to complete based on a teacher’s background knowledge on progress monitoring.
2. Take a screen shot of the completed post-test for each Reading Rockets module AND write responses to the 5 short-answer questions from the Classroom Assessment (Part 2) Evaluating Reading Progress Assessment on the IRIS site. (Note that the Introduction module from Reading Rockets does not include a post-test.)
3. Log the dates and hours it takes to complete each module (including the module on progress monitoring from the IRIS Center) and provide a total number of hours to complete the training.
4. Send the screen shots of completed post-tests from each Reading Rockets module (and short answer responses to the IRIS assessment) and the training log with dates/hours to carrie.thomas-beck@state.or.us The Department will then issue a Certificate of Completion so teachers can earn professional development units to use toward continuing licensure.
