

Constructions Unit Day 1 Exit Slip:

Circle the number or make a mark where you would rate your understanding of the following constructions. Use the rubric below describing each rating.

4 Highly Proficient	3 Proficient	2 Nearly Proficient	1 Working Toward
The drawing is neat and precise with all the construction markings visible. I have provided a clear, detailed description of each step of the process. I can repeat this construction without referring to my construction notebook.	The drawing is complete and the construction marks are visible. I have provided a clear description of each step of the process. To repeat this construction, I would have to refer to my construction notebook.	The drawing and the description of the steps in the process are nearly complete. I am still working toward one of the following: <ul style="list-style-type: none"> • Showing all the construction marks. • Completing the construction. • Describing the steps of the process 	I am finding it difficult to complete and describe the steps of the process.

1. I can copy a segment and describe each step in the process.

2. I can copy an angle and describe each step in the process.

3. I can bisect a segment and describe the steps in the process.

4. I can bisect an angle and describe the steps in the process.

5. I can construct perpendicular lines, including the perpendicular bisector of a line segment and describe the steps in the process.

6. I can construct a line parallel to a given line through a point not on the line and describe the steps in the process.

7. How could you use more than one of these constructions to create other geometric shapes or components?
