

Constructions Exploration Record Sheet:

MGE.ALT 5.1: I can demonstrate my understanding of formal geometric constructions by performing and explaining each step.

1. Record the description of the construction you have been assigned below.

Remember you can only use a compass and a straightedge. If you have a ruler or protractor, you cannot use the measurement markings, such as inches, centimeter, or degree measures.

2. Below, show and explain the steps you used to complete your assigned construction.
