

Oregon's Early Learning and Kindergarten Guidelines Scavenger Hunt

1. What are the four best practices identified for implementing the Early Learning and Kindergarten Guidelines?

2. Complete the statement about *adverse childhood experiences and trauma-informed practice*: “For children who have experienced traumatic events in their lives, it is also critical to create _____, to use an _____ and _____ approach to addressing challenging behaviors, and to identify and provide _____.

3. What are the four most common stages of second language development?

Approaches to Learning

1. Complete the statement from *Links to Readiness and School Achievement*: “Adults and care givers must work together and actively seek _____ to create and support _____ educational experiences based on _____ for all children.”
2. Name one goal under Approaches to Learning:

Social-Emotional Development

1. Complete the statement from *Culturally Responsible Practice for Social-Emotional Development*: “_____ and _____ backgrounds must be taken into account as well as individual differences such as a child’s _____, _____, and _____.”
2. Name one indicator by entry to kindergarten for this goal: “Child manages emotions with increasing independence.”

Language and Communication

1. Complete the statement from *Supporting Children with Special Needs*:
“Some children, including those with special needs, may need _____ approaches to teaching and learning and opportunities to _____ knowledge.”
2. The goal, “Child understands and uses a wide variety of words for a variety of purposes” is under the _____ sub-domain.

Literacy

1. Name three things that a dual language learner may say or do to demonstrate literacy learning:

2. Under the goal, “Child writes for a variety of purposes using increasingly sophisticated marks,” at what age might a child be able to “imitate zigzag and crossed lines, trace dotted lines, and draw simple figures”? _____

Mathematics

1. Under which goal can this standard by the end of kindergarten be found: “Compares two numbers between 1 and 10 presented as written numerals.”

2. Name three things adults should do to support learning in mathematics:

****Extra credit:** There are a series of letters and numbers after the “By End of Kindergarten” standards. To what do these letters and numbers refer?
